📄 PROFILE

AI & Full Stack Developer with hands-on experience in web development, data analytics, machine learning, and artificial intelligence. Currently pursuing B.Tech in Artificial Intelligence & Data Science (3rd year). Skilled in building responsive web applications, developing backend systems, analyzing datasets, and applying AI/ML techniques to solve real-world problems through internships, hackathons, and academic projects.

🎓 EDUCATION

B-Tech ARTIFICIAL INTELLIGENCE AND DATA SCIENCE CGPA : 9.2	09/2024 – 06/2028 Madurai
SITALAKSHMI GIRLS HIGHER SECONDARY SCHOOL HSC - 90.0 SSLC - 89.6	07/2017 – 05/2024 Madurai

📁 PROFESSIONAL EXPERIENCE

Pydun Technology - Madurai Data Science and Analytics with AI	06/2026 – 06/2026 Madurai
• Applied data analytics techniques for cleaning, transforming, and analyzing datasets • Built foundational knowledge in machine learning algorithms for predictive analysis • Created visual dashboards and reports for business insights using Power BI and Excel • Developed practical exposure to end-to-end data workflows from collection to visualization	
SK Tech Forage – Madurai Data Science Intern	12/2025 – 12/2025 Madurai
• Worked on foundational data science concepts including data preprocessing and analysis • Applied Python and basic machine learning techniques on sample datasets	
British Airways – Forage (Online) Data Science Virtual Experience	12/2025 – 12/2025 Online
• Gained exposure to real-world data science workflows • Performed data analysis, feature understanding, and business-driven insights

SKILLS

Full Stack Development

- HTML
- CSS
- JavaScript
- React
- Node.js
- Express.js
- REST API

Databases

- MySQL
- MongoDB
- PostgreSQL
- Firebase
- phpMyAdmin

Frameworks & Tools

- Flask
- Streamlit
- Git
- GitHub
- Figma

Programming Languages

- Python
- C
- JavaScript

Data Analytics & AI

- Data Analytics
- Machine Learning
- Data Preprocessing
- Data Visualization
- Power BI
- Excel
- KNIME

Query Language

SQL

CERTIFICATES

- Full Stack Development - GeeksforGeeks
- Supervised Machine Learning: Regression & Classification – Coursera
- Prompt Engineering with ChatGPT – SkillUp
- Backend Development - Coursera
- Microsoft Azure AI Essentials – LinkedIn Learning
- Python (Basic) – HackerRank

PROJECTS

LevelUp – AI Career Guidance Platform

Gen AI Exchange Hackathon (National Level)

- Developed an AI-powered career guidance platform to provide personalized learning roadmaps for students
- Implemented features including **mock interviews, AI resume generation, and progress tracking**
- Integrated **Google Cloud, Firebase, and Vertex AI** for AI-driven recommendations
- Improved user skill development through **gamified learning and adaptive career suggestions**

Khel Mithra – AI Sports Talent Identification App

Smart India Hackathon 2025

- Built an AI-based mobile application to help **SAI identify and evaluate sports talent**
- Implemented **fitness video analysis** for AI-based performance validation
- Added features such as **e-KYC, tamper detection, nutrition guidance, and progress tracking**
- Used **React Native, FastAPI, and MongoDB** to build a scalable application

AI Resume Analyzer (Mini Project)

- Developed an intelligent resume screening system using **Python, NLP, and Machine Learning**
- Extracted candidate details such as **skills, education, and experience** from resumes
- Matched resumes with job descriptions and generated **suitability scores**
- Performed **skill gap analysis** to identify missing competencies and improve hiring efficiency
